19 February 1957

Dear Josh:

Thanks for the reprints and  
for the stimulation that your  
work provides.

I note by the paper by J.T. Park  
(Science) that your paper on E. coli  
protoplast formation with comments  
on penicillin effect on cell wall is due  
to come out in J. Bact. I look forward  
to it.

I have some interesting stuff on  
a Sarcina (?) and its cell wall. Might  
be a good object for similar experiments.

Yours aye

Bob.

MURRAY
